THIS IS A MUST SEE. . . YOU HAVE TO GET INSIDE!!

CALLING ALL EDUCATED BUYERS LOOKING FOR QUALITY BRICK, SIZE AND LOCATION - These beautiful older style, quality, brick homes are tightly held and rarely presented to the market in a 4 bed, 2 bath style.

This very large, quality built home offers a size for your family rarely seen in this price point. 4 huge built in bedrooms + an office, 2 bathrooms, wide hallways, spacious grand formal lounge room, dining with a family sized kitchen . . . PLUS the double garage was turned into a craft room and would make an awesome rumpus room.

The solid, well crafted build, combined with the 5 star location and substantial family size will have you in awe. Let's face it . . . a fresh coat of paint, flooring update and some extra little touches will only enhance the exceptional beauty and you could do this now or down the track . . . but rarely do these properties present to the market in a 4 bed 2 bath and you don't want to let this one pass you buy . . .

If you have been waiting for that special
